EDUCATION

University of Wisconsin–Madison

Madison, WI

B.S. in Computer Science, Certificate in Business

Expected Graduation: May 2028

- Focused on software development, algorithmic problem solving, and backend system design.

TECHNICAL SKILLS

Languages: Java, Python, C, HTML, CSS

Core Competencies: Object-Oriented Design, Data Structures, Algorithmic Problem Solving, REST API Development (Learning)

Tools: Bash, Git, GitHub, VS Code, IntelliJ, Command Line

PROJECTS

Class Enrollment Management System | *Java, OOP, File Handling*

- Developed a course enrollment system to manage student registrations, course assignments, and academic schedules.
- Designed object-oriented models for students, courses, and enrollments, improving code modularity and maintainability.
- Implemented features to add/drop courses, validate seat availability, and prevent scheduling conflicts.
- Utilized appropriate data structures for efficient storage and retrieval of records.
- Applied exception handling and input validation to ensure reliable system performance.

Custom Data Structures Library | *Java*

- Built implementations of core data structures including linked lists, stacks, queues, hash maps, and binary search trees from scratch.
- Implemented traversal algorithms (DFS, BFS) and recursive operations for trees.
- Analyzed time and space complexity of operations to understand performance trade-offs.
- Created test cases to verify correctness and robustness of each data structure implementation.

EXPERIENCE

Robot Delivery Coordinator

- Managed and monitored customer orders received through an online platform for autonomous robot deliveries.
- Coordinated dispatching and routing to ensure timely and accurate delivery operations.
- Troubleshoot order or delivery issues in real time, improving overall service reliability.

Digital Marketing and Business Development Associate

Settelo Realty Private Limited

- Assisted in planning and executing digital marketing campaigns to promote real estate projects across online platforms.
- Generated and managed leads through social media and digital outreach strategies.
- Communicated with prospective clients to understand requirements and support business development efforts.
- Analyzed market trends and customer engagement data to help refine marketing strategies.
- Collaborated with design and content teams to improve brand visibility and online presence.

ACTIVITIES & LEADERSHIP

Co-Founder

Badger Cricket Club

- Co-founded a student cricket club and helped organize practices and matches.

Volunteer Educator

Community Mosque

- Prepared learning materials and conducted assessments to support student education.
